

FOTON

TUNLAND DOUBLE CAB 4X4 2013 BAKKIE OF THE YEAR*

The Tunland is the next generation of multi-purpose Bakkie and the first vehicle in its class to carry a Cummins engine. Tunland prototypes were subjected to 16 performance indexes, over 100 000 kilometres of endurance exercises and clocked up more than a million kilometres in high-temperature, high-altitude and extremely cold environments. Locally, the Tunland DC 4x4 proved its mettle by conquering the notorious Baboons Pass in Lesotho in the inaugural Foton Expedition.

All Tunland Double Cab 4x4 (Luxury and Comfort) models boast a host of features and high specifications, with the Luxury models featuring the additional perks of Leather Seats throughout, a Tonneau cover for protecting your cargo, and a Roll Bar for added ruggedness.

*Awarded by Bakkie & Truck Magazine
